

Since 2008 Third Coast Capital Advisors has provided buy-side services to private equity firms and corporate clients. We have a senior model where all engagements are executed in their entirety by experienced, senior level investment bankers. This allows us to forge a strong connection with target company ownership which leads to directly negotiated, non-competitive transactions.

Our M&A Services

Acquisition Search & Advisory

Target identification, outreach, evaluation and execution for add-ons for existing portfolio companies

M&A Opportunity Assessment

Perform market research during a competitive process to evaluate and validate the add-on potential for a new platform and assess industry consolidation

Buy-side Consulting Services

Provide project-based services including acquisition strategy development, market research and corporate development support
